Courses for Everyone - at All Levels

Be a part of a music community.

Here, you will find courses in all kinds of music.

Choose from courses in different instruments, singing in a choir,
trying out music production, playing in a band, or even becoming a
better singer – it is your choice!

And you will meet new friends along the way!

Courses and Activities

at Rytmisk Center

Are you passionate about playing music or singing, or are you curious to try it out? Rytmisk Center offers courses and opportunities for you to develop your interests, whether you are a beginner or skilled. We have a long tradition of music education. Everyone is welcome regardless of level, and whether music is your hobby or your great passion.

You can learn to sing, play an instrument, join a choir, play in a band, write your own songs, or work with music production. All lessons are conducted in groups, allowing you to share your musical interests with others. All our instructors are experienced musicians and educators. Our lessons take place in our own facilities on Vesterbrogade and Øster Farimagsgade in Copenhagen. We have dedicated spaces equipped for the lessons we offer, and we also provide some instruments.

Each year, we offer approximately 500 courses that start continuously - keep an eye on our website at **www.rytmiskcenter.dk** for updates.

Instrumental Instruction

Give yourself the gift of learning to play a musical instrument

You will acquire fundamental skills on your chosen instrument, as well as music theory, notation, and ear training. We structure our classes based on your abilities, needs, and desires. Even though the season is underway, there may still be available spots. Classes have 2-6 participants, allowing for both ensemble play and individual attention. Your instructor ensures that your learning journey aligns with your abilities, wishes, and expectations. Please note that access to your instrument at home is necessary to practice the skills covered in class.

Electronic Music

Learn how to create and produce music using software like Ableton Live, Logic Pro, and FL Studio. You'll learn to use synthesizers and other electronic tools, and really tap into your creativity. Whether you are into crafting heavy beats or dreamy melodies, we have courses that will help you explore all the possibilities.

DJ

Develop the mindset of a DJ and learn to master the DJ deck, mixing different music pieces seamlessly into an astonishing whole. Discover the history of DJing and dive into Rekordbox, the software used by professional DJs worldwide. Create your own mixtapes that will ignite the dance floor in record time.

Singing

Learn to sing and become a better vocalist by using your voice correctly. You will acquire a wide range of singing techniques and artistic skills. Develop your voice as an instrument with a focus on technique (breathing, support, and tone) and expression (interpretation, emotion, and phrasing). You will be introduced to various music genres, becoming a vocalist with broader musical ability.

Play in a Band

Join a band and experience music collaboration. You can play pop, rock, jazz, metal, or something entirely different — whatever you and your fellow band members choose. You should have basic skills on your musical instrument to participate in ensemble play. For example, you have received music instruction on your instrument/voice for 1-2 seasons or have equivalent experience.

Rotational Ensemble Play

This option is for those who never learnt to play an instrument but still want to participate in ensemble play.

Choir

Come and sing with others! You will easily find a choir that suits you among our 26 choirs in Copenhagen, covering various levels and genres. The levels range from beginner choirs (for those who think they sing off-key or are uncertain) to advanced choirs (for experienced singers seeking a challenge). You can sing pop, soul, jazz, swing, folk, Bulgarian, gospel, musical, classical, showtunes, and more. You will also have the opportunity to perform at our annual choir concerts.

Rytmask Center

PRACTICAL INFORMATION

FACILITIES

Our lessons take place in Rytmisk Center's facilities on Vesterbro and Østerbro. Our rooms are equipped for the musical disciplines we teach. Practice and rehearsal rooms feature pianos, drum sets, percussion instruments, amplifiers, and cables. There are common areas on each floor where you can wait before or after your lessons.

An elevator is available for access to all floors on Vesterbro.

In the evenings, our Evening host is present and can assist with finding rooms, equipment, or answer any questions.

REGISTRATION & PAYMENT

You can find all our current offerings at:
www.rytmiskcenter.dk

On our website, you can find detailed descriptions of each course, including class times and the instructor's information. Contact details for all instructors are also available. Registration is done through the website, where you will be directed to the registration form and payment options.

If you need guidance on selecting the right course or have other questions, contact us at:
